2. Other
3. Approval of Previous Minutes (November 2016)
 - Letter penned by members of our SAC was not received by the Board.
4. Business Arising from Minutes
 - Communication around transition is a problem - why is there not more information being shared with families of BHS students currently in Grades 9-11?
 - We would like clear information on the status of the transition.

- There are members of the BHS community who were supposed to be part of subcommittees who have never been contacted to attend a meeting.
- The SAC would like to call a meeting to have central office staff update the SAC on the transition process and answer questions for which SAC members have not received a response.
- Will students be required to do work over the summer to transition into IB courses at PVEC? Getting a mixed response to this question.
